

Sacto.com

Sacto.com is for you!

- ✓ Is your business on the web?
- ✓ Would you like it to be, but don't know where to start?
- ✓ Are people asking for your web address, and you don't have one?
- ✓ Do you already have a website, but it has an ugly address?
- ✓ Would you like an easier way for people to find you on the web, but don't want the expense of registering a domain name?
- ✓ Is your favorite domain name taken?

What is Sacto.com?

Sacto.com is a website in the internet's commercial domain, specializing in helping individuals and small businesses in the Sacramento region get noticed on the web. If you don't have a website yet, we can create and host a basic page for you.

Get your business on the web –

We'll even do it for you **FREE!** If you commit to Sacto.com hosting your website for only six months, we will create your page for you! You get a single page with background, text, links, and a scanned image. Frames, custom artwork or other fancy stuff are extra. See an example at <http://sacto.com/mather> and decide for yourself if this is what you have in mind.

What you get -

- ✓ A page hosted on the Sacto.com website
- ✓ Choose your own name!

What you don't have to pay for -

- ✓ No expense to register a domain name.
- ✓ No monthly ISP costs.

Other Services -

- ✓ **Redirect Service:** If you already have a page with an “ugly” address, or if you decide to expand with your own ISP, you can still use a Sacto.com address with our website redirect service.
- ✓ **Provide a link to your site:** Get hits on your site by renting an icon at Sacto.com that links directly to your site. These links can be within any budget.
- ✓ **Website Design:** Complete website design services, including scanned images, frames, lists, links, etc.
- ✓ **Other Services:** Visit us at <http://www.sacto.com/> for details of our services and associated fees.
